

SAGAR KAUSHIK

Computer Science & Engineering Graduate | Python | SQL | Data Engineering | FastAPI | MongoDB

✉ sagarkaushik584@gmail.com ☎ +91-6377329766  LinkedIn  GitHub

PROFILE

Computer Science graduate with **10 months** of experience as a **Web Developer** Intern and Web Developer. Skilled in **Python, SQL, MongoDB, REST APIs, backend development, data processing, CRUD, and database concepts**, with foundational knowledge of **ETL/ELT** and **data pipelines**.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML5, CSS3

Data & Databases: MongoDB, PyMongo, Motor, Database Design, Database Queries, Data Modeling

Data Engineering: ETL/ELT Concepts, Data Pipelines, Data Processing, Data Validation

Backend: FastAPI, RESTful APIs, CRUD Operations, JWT, Authentication, Authorization, API Validation

Tools: Git, GitHub, Postman

Concepts: Data Structures, OOP, DBMS, HTTP, JSON, REST API Architecture, Asynchronous Programming, Problem-Solving

PROFESSIONAL EXPERIENCE

Uddharana Tech Private Limited, Faridabad, India 

07/2025 – 07/2026

Software Engineer Intern

- Developed **RESTful APIs** and web applications using **Python, FastAPI, and MongoDB** for product, cart, and order management.
- Designed and managed **database operations** including **CRUD**, data validation, database queries, and structured data handling.
- Implemented request validation, exception handling, authentication, and structured API responses to maintain data consistency and reliability.
- Tested and debugged API endpoints using **Postman** and contributed to code reviews, documentation, and deployment.
- Progressed from **Web Developer Intern (6 months)** to **Web Developer (4 months)** based on performance and project requirements.

PROJECTS

Student Management System 

FastAPI, React.js, MongoDB

- Developed a full-stack student management application with **RESTful CRUD APIs using Python and FastAPI**.
- Designed MongoDB collections and implemented database operations, data modeling, validation, and data handling.
- Integrated backend APIs with React.js frontend and implemented data flow between application components.
- Tested API endpoints using Postman and implemented request validation and exception handling.

Bank Management System 

FastAPI, React.js, MongoDB, JWT

- Developed a backend application for user, account, and **transaction data management using FastAPI and MongoDB**.
- Implemented database operations, CRUD APIs, data validation, authentication, and authorization.
- Designed protected API routes and integrated React.js frontend with MongoDB-backed REST APIs.
- Applied database and object-oriented programming concepts while managing structured transactional data.

EDUCATION

Rajasthan Technical University

B.Tech. in Computer Science and Engineering

2022 – 2026

Bharatpur, India

- 8th Semester, CGPA: 9.3

• Relevant Coursework: Database Management Systems (DBMS), Data Structures, Computer Networks, Operating Systems, Object-Oriented Design, AI-Assisted Research
